

# HACK THE BOX

## University Enrollment Brief

Hack The Box is a proud supporter of education. Here is how academic institutions from all around the world can enroll for free to Hack The Box and enter a captivating world of hands-on and gamified cybersecurity training.

JAN 2022

# ABOUT US

Hack The Box is an online cybersecurity training platform that allows individuals, companies and universities all around the world to level up their penetration testing and hacking skills through a **fully gamified, self-paced, and hands-on learning environment.**

## CYBER TRAINING **GAMIFIED**

# 850k

Platform Members

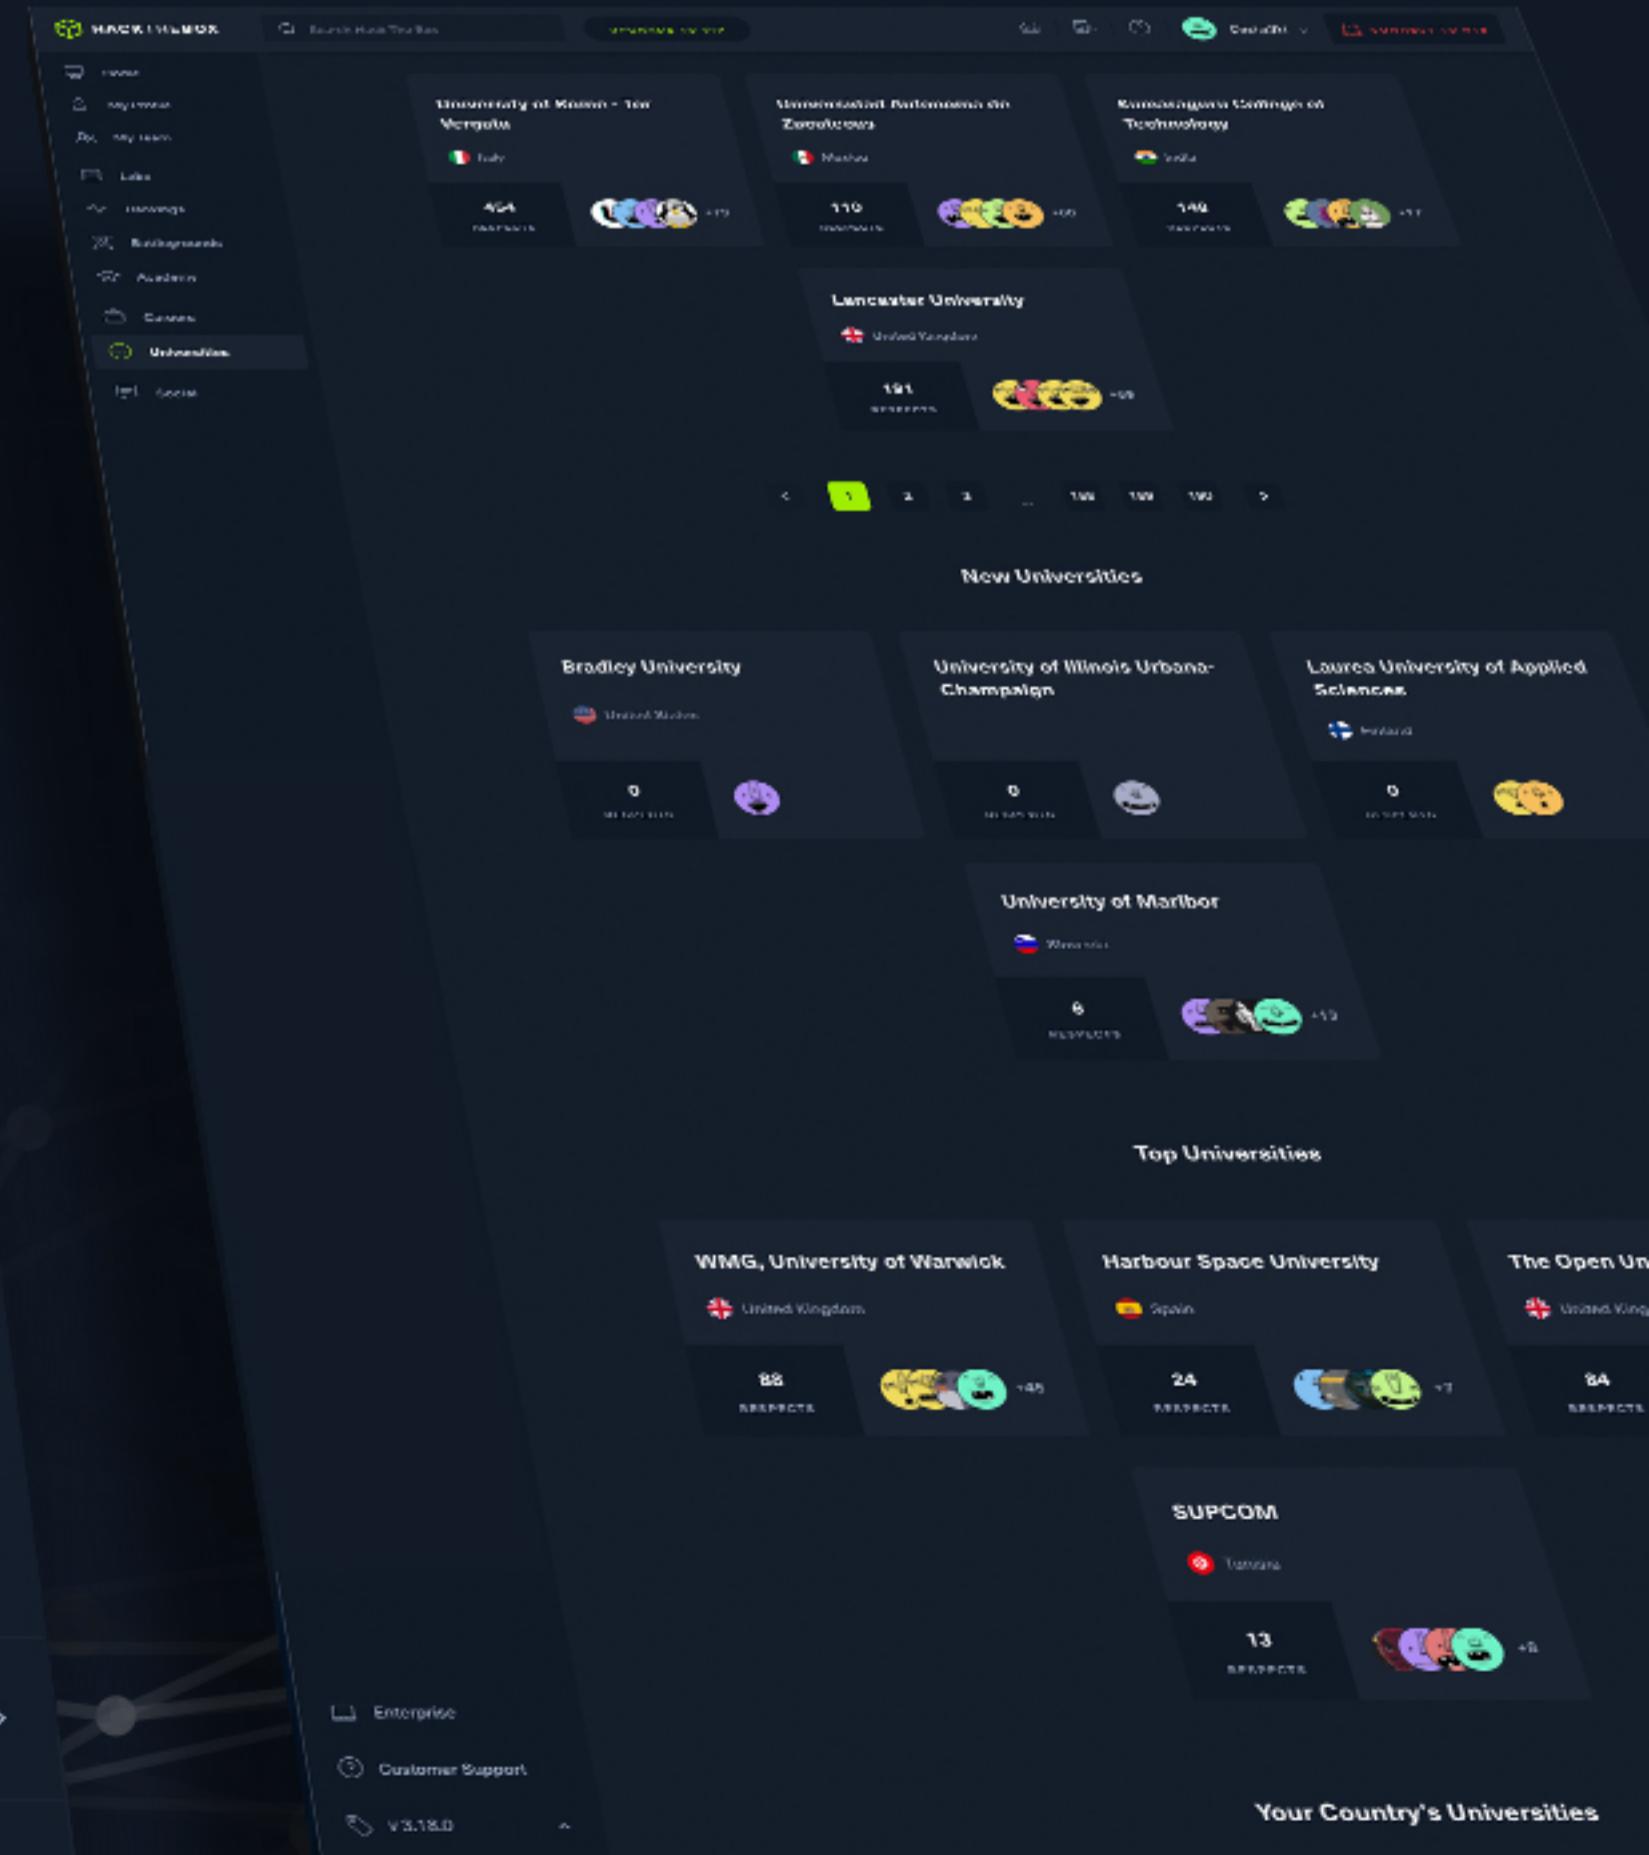

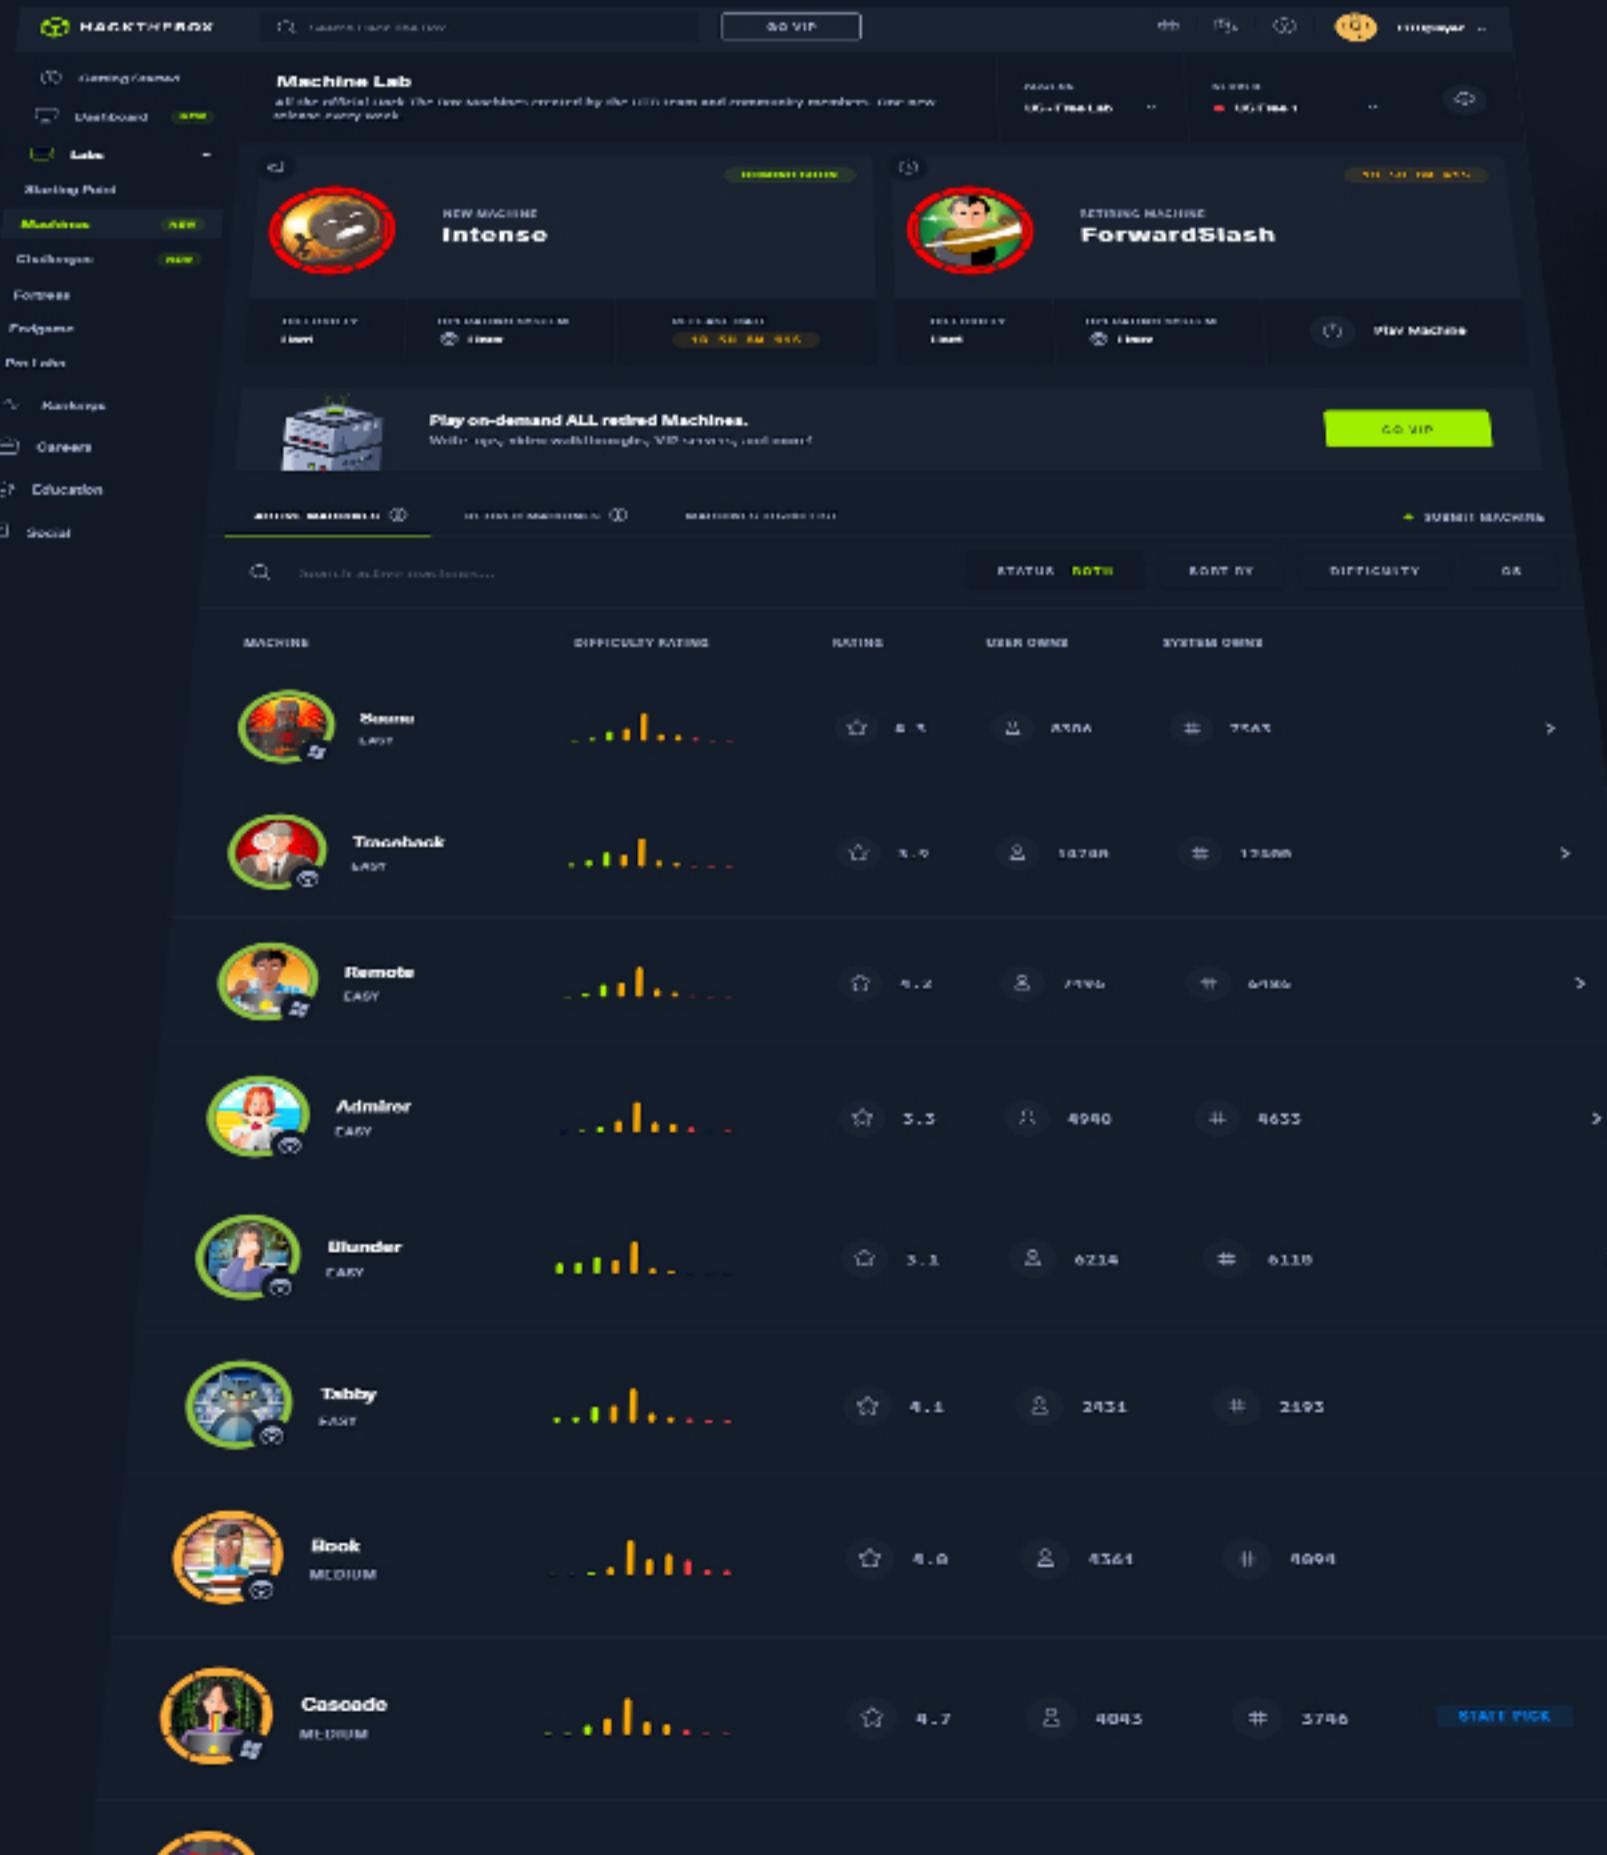

# +450

# 700+

Universities Globally

# WHY JOIN?

Because you will be part of the Hack The Box family, counting over 700 global universities.

Because joining is free and 100% fun, both for professors and students.

Because your students can be part of the most massively growing CyberSec community in the world, build a network, and explore our Careers section with 170+ targeted job openings.

Because everyone wants a captivating learning experience.

Our platform offers cybersecurity training that is:

## Hands-On

A cybersecurity training experience that moves from theory to practice, making students discover the answer on their own.

## Gamified

A rich variety of gamification mechanics like leaderboards and tiers, integrated within the platform, make training fun and truly engaging.

## Self-Paced

Our web-based labs, available 24/7, provide unlimited access to self-paced training, beyond the University's premises.

## Tailored

Select the most relevant HTB content to you, save the selected VMs, and build customised courses and curricula for your students.

# FREE FEATURES

Here are the main features you get by enrolling your University or College to Hack The Box. Be part of the **biggest CyberSec community in the world!**

## University Listing

Get listed among all Universities that are part of the Hack The Box family. Gain awareness for your institution.

## University Dashboard

Access your University dashboard to keep track of your progress, manage your members. Customise it with all the details needed:

- Website
- Logo
- Description
- Team Members (students and admin)
- Member Stats (rank, respect, points, overall HTB completion rate)

Rankings

# CYBERSECURITY TRAINING OPTIONS

A hands-on and gamified learning experience **for your students.**

UPGRADE YOUR TRAINING

## Cybersecurity Training Labs

Take your University's cybersecurity training seriously! Dedicated Labs and Professional Labs provide a completely isolated environment hosted under [enterprise.hackthebox.com](https://enterprise.hackthebox.com) accessible only by the members assigned to it – your students.

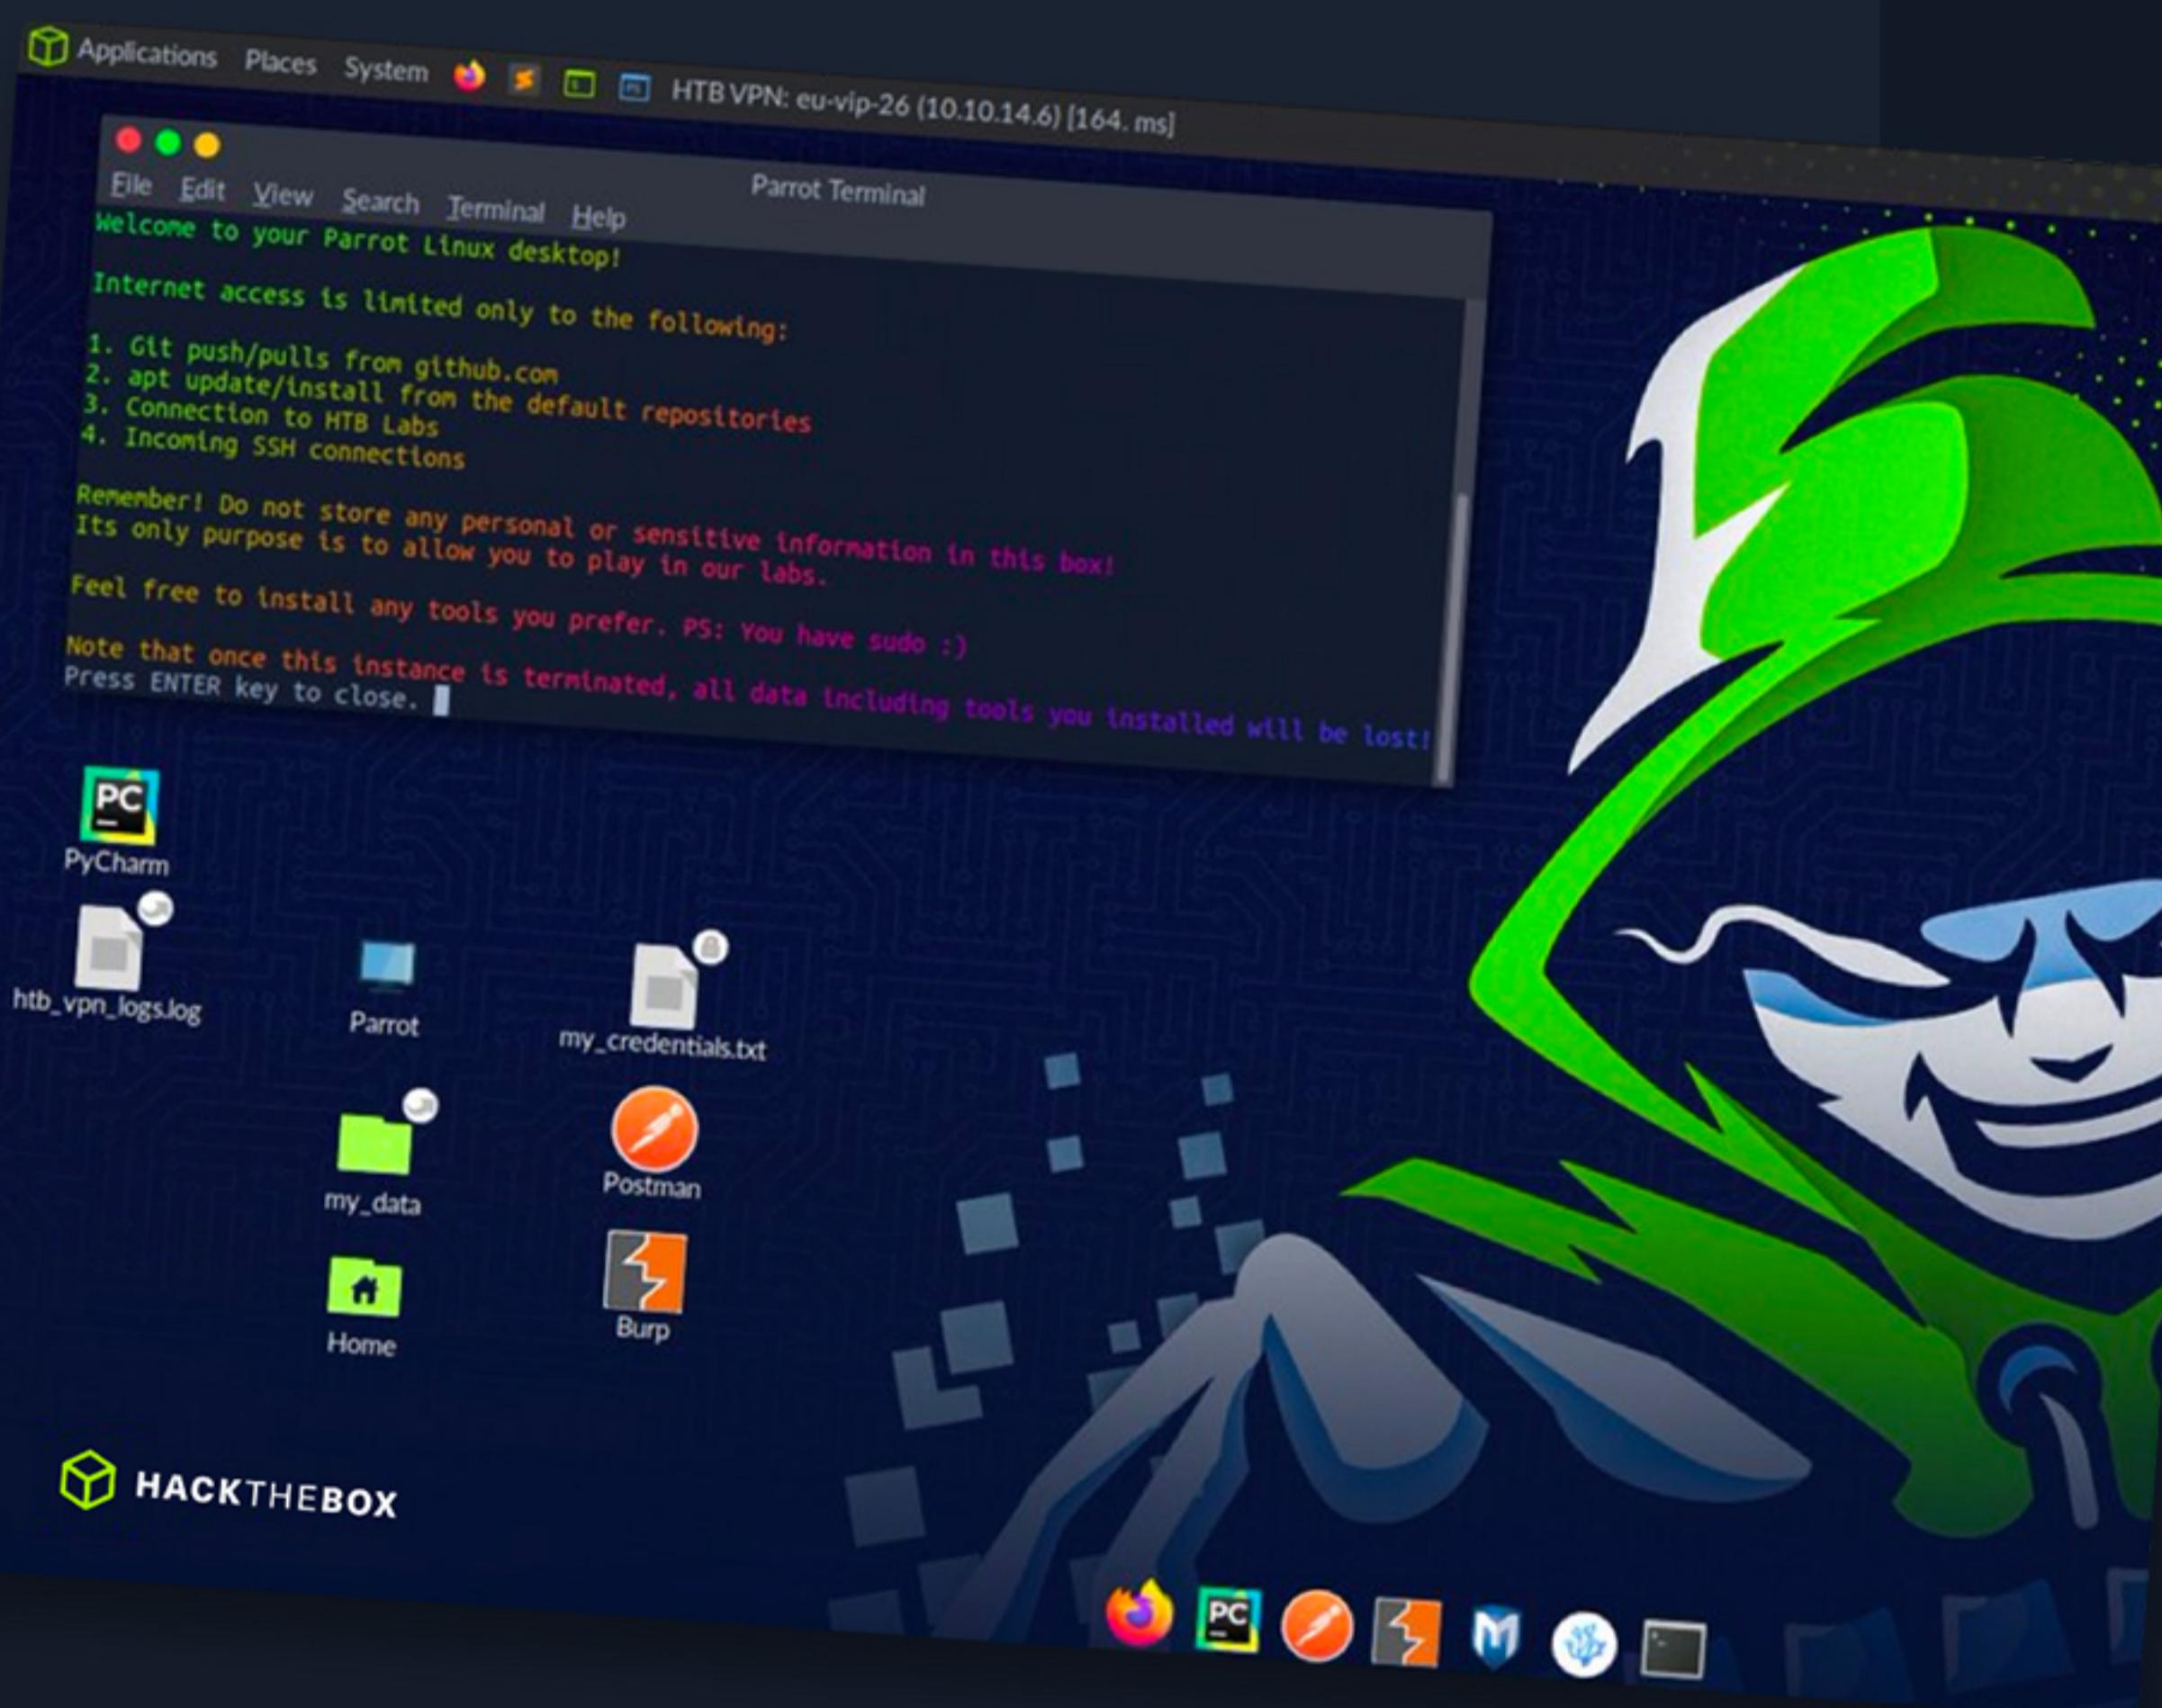

UPGRADE YOUR TRAINING

## Train With Dedicated Labs

An exclusive HTB experience offering an isolated VPN environment, leaderboard, user progress, easy-to-use admin panel, and more!

- Private Environment & VPN Server
- Admin Management & Guest Users
- User Activity Monitoring & Report
- Exclusive Content Access

UPGRADE YOUR TRAINING

## Get Certified With Professional Labs

Professional Labs are advanced training labs simulating real-world scenarios, giving participants a chance to penetrate enterprise infrastructures.

- Certificate Of Completion
- Write-Ups: Guidance Documentation
- Rotation Between All Scenarios
- Private Environment & VPN Server
- Admin Management & Guest Users

### Special Academic Pricing

We do our best to support education. Academic institutions receive a special pricing for all **premium training services**. Contact us to learn more and get started!

# START YOUR JOURNEY

ENROLL TODAY - IT'S FREE

Here is how Universities join Hack The Box. Three easy steps.

1

2

3

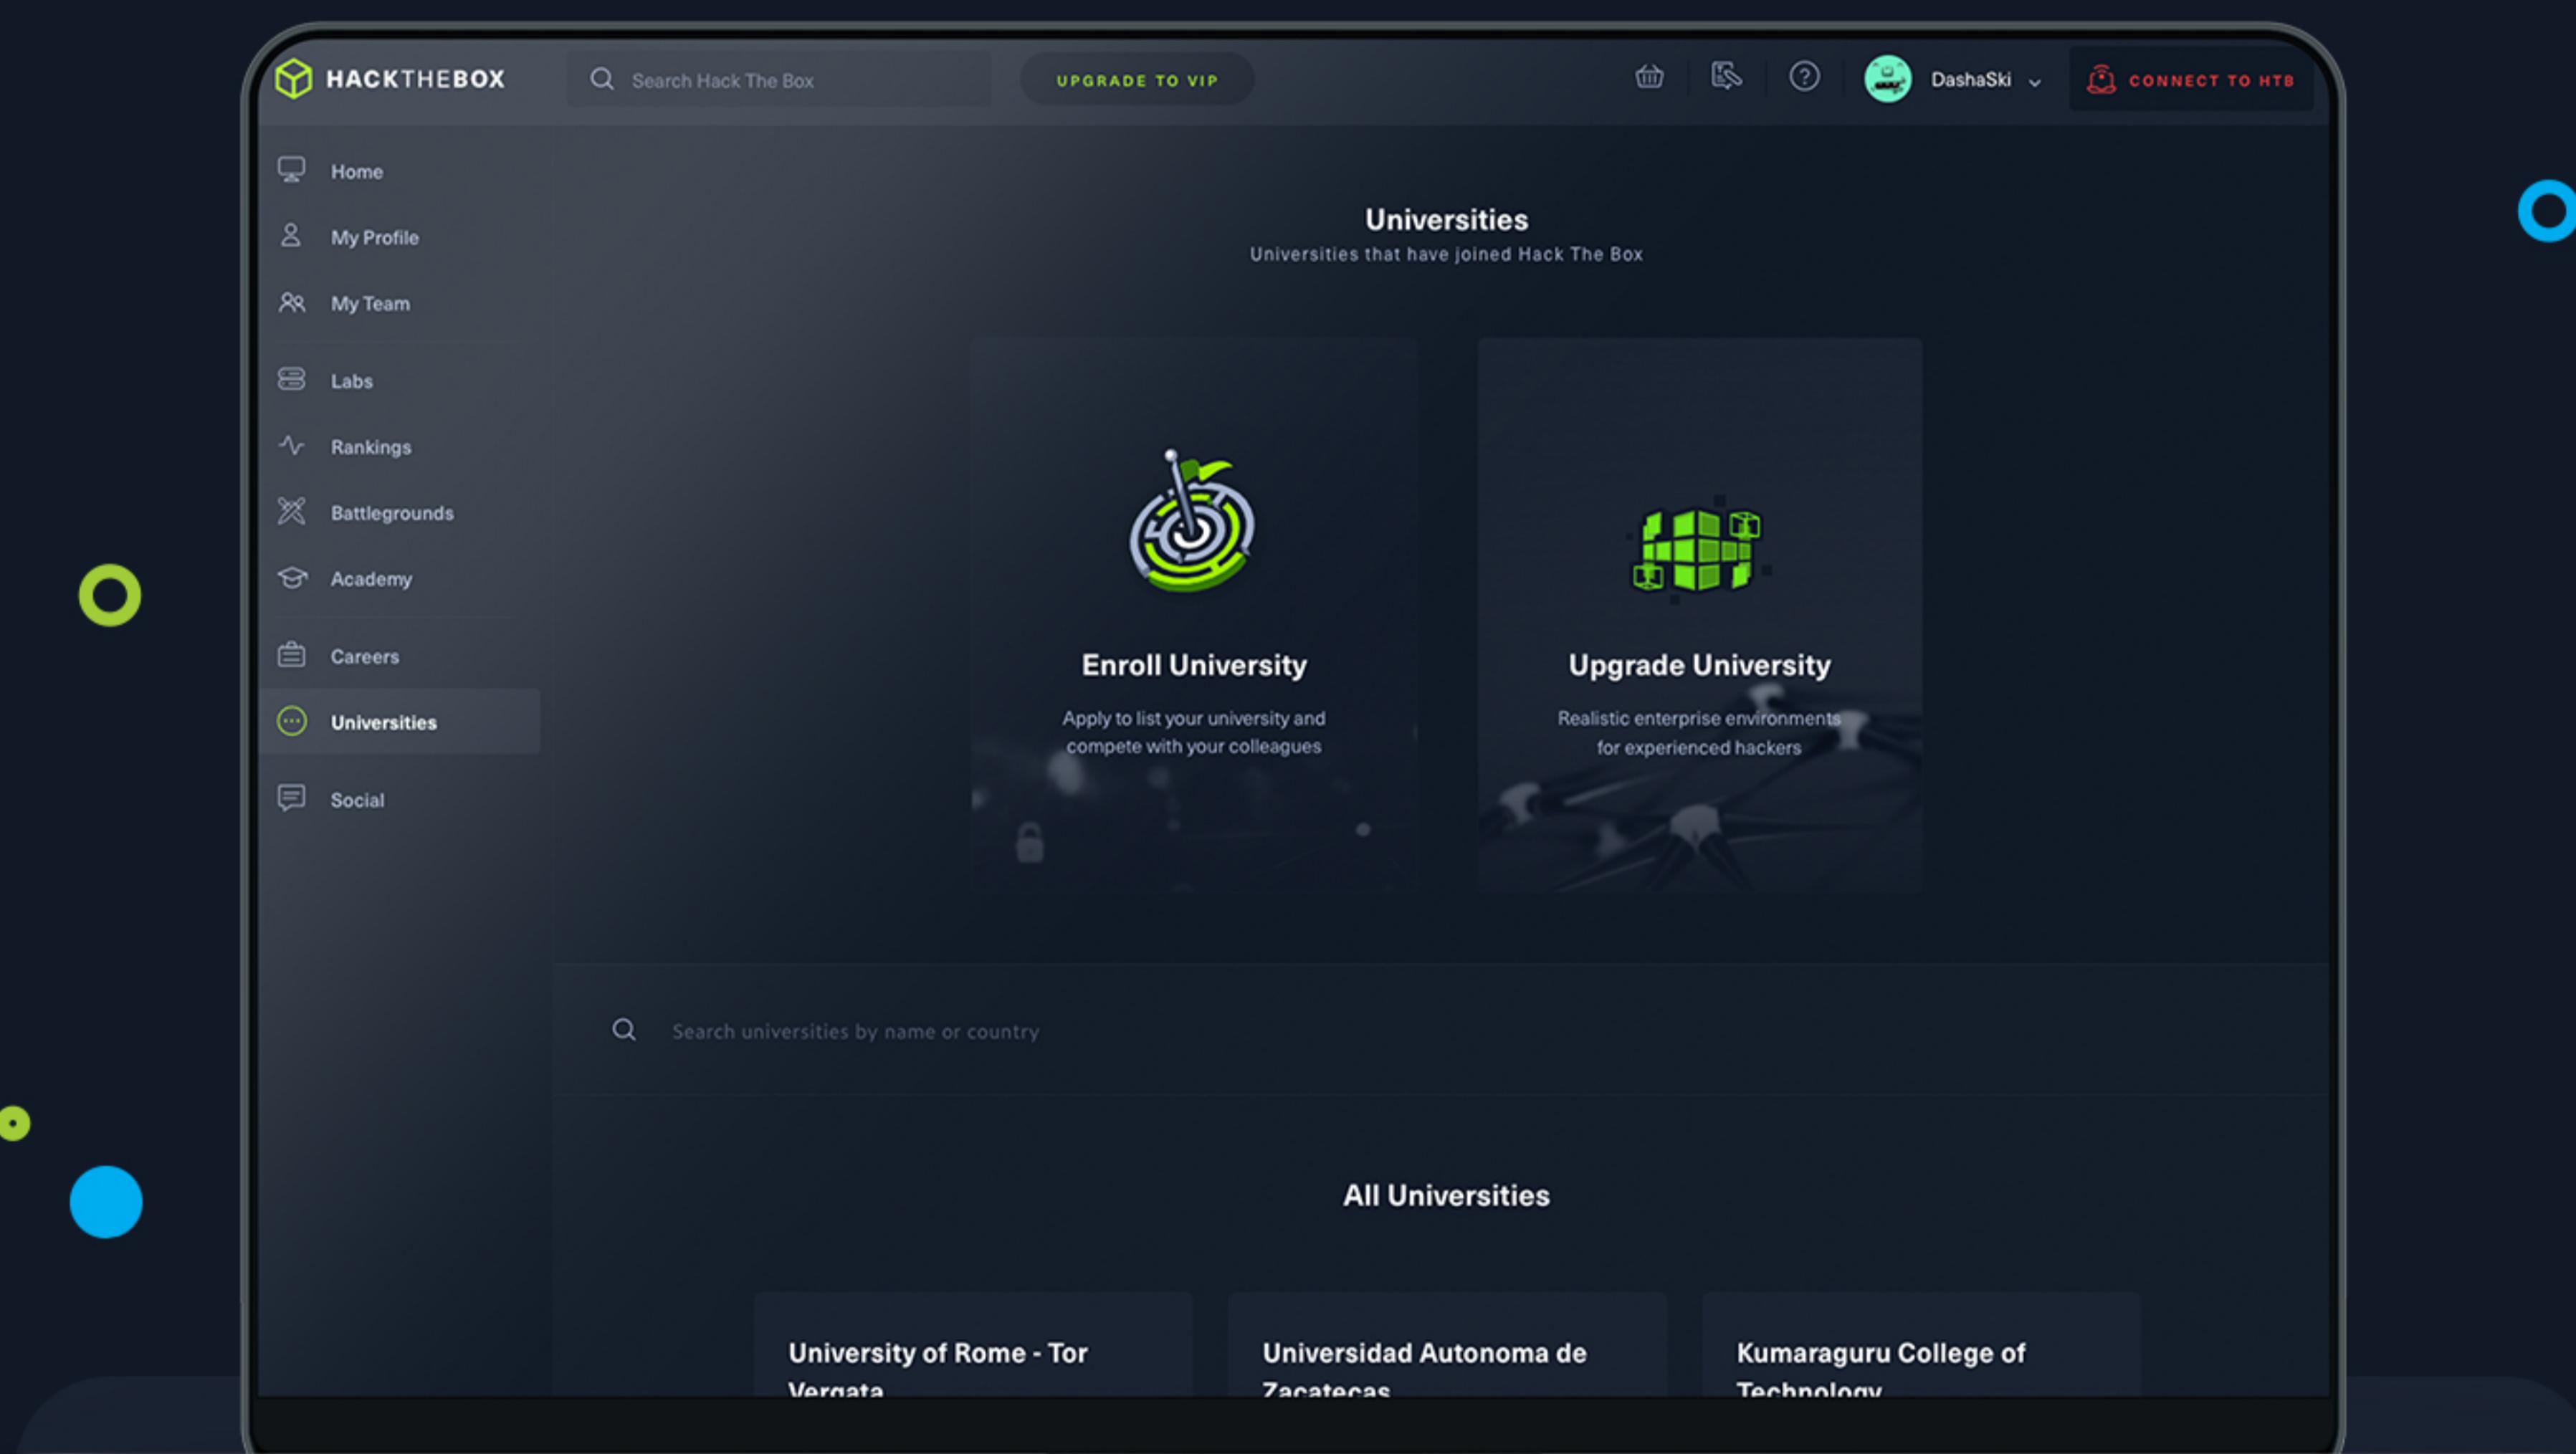

Join Hack The Box.

Register at:

[hackthebox.com](https://hackthebox.com)

Apply to **enroll for free!** We only require an authorization form to be completed and signed by a faculty member.

Once accepted by our team, login and start your University's HTB journey.

"Hack The Box has allowed NOVI Hogeschool to enrich its cybersecurity curriculum with a broad spectrum of training machines to take the materials from theory to practice. The students form a valuable community on our dedicated environment and challenge each other to become better, adding a gaming element to cybersecurity education."
